Dawn Grine, City of Corning; Clay Parker, City of Red Bluff; Bill Borrer, City of Tehama; Kris Lamkin, El Camino Irrigation District Todd Hamer, Los Molinos Community Services District; Martha Slack, Rio Alto Water District

District 1: Harley North, District 2: Ernest Bonner, District 3: Bart Fleharty,
District 4: Hal Crain, District 5: David Lester

Gary Antone, Executive Director, Ryan Teubert, Flood Control/Water Resources Manager

This meeting conforms to the new Brown Act Open Meeting Requirements, in that actions and deliberations of the Groundwater Commission created to conduct the people's business are taken openly; and that the people remain fully informed about the conduct of its business. Any written materials related to an open session item on this agenda that are submitted to the Clerk less than 72 hours prior to this meeting, and that are not exempt from disclosure under the Public Records Act, will promptly be made available for public inspection at Tehama County Public Works, 9380 San Benito Ave., Gerber, CA 96035 during normal business hours.

1. CALL TO ORDER

2. PUBLIC COMMENT

This time is set aside for citizens to address this Commission on any item of interest to the public that is within the subject matter jurisdiction of the Groundwater Commission provided the matter is not on the agenda or pending before this Commission. The Chair reserves the right to limit each speaker to three (3) minutes. Disclosure of the speaker's identity is purely voluntary during the public comment period.

3. INFORMATIONAL PRESENTATION BY DAVIDS ENGINEERING

Informational Presentation and Discussion: Davids Engineering will be presenting a Sustainable Groundwater Management Act Sustainability Risk Assessment and Work Plan for implementing the County's Groundwater Sustainability Plan and collecting input from the Commission.

4. ADJOURN

Regular Item

Daids Engineering Presentation

Requested Action(s)

Informational Presentation and Discussion: Daids Engineering will be presenting a Sustainable Groundwater Management Act Sustainability Risk Assessment and Work Plan for implementing the County's Groundwater Sustainability Plan and collecting input from the Commission.

Background Information:

Daids Engineering was hired to complete a risk assessment of the six undesirable results in relation to the Sustainable Groundwater Management Act (SGMA) and to develop a high-level work plan and budget for implementing the Groundwater Sustainability Plan (GSP).

The risk assessment will compile existing data from Department of Water Resources and Tehama County's 2012 Groundwater Management Plan to evaluate each of the six undesirable results. The six undesirable results to be evaluated are:

- Lowering of Groundwater Levels
- Reduction of Storage
- Seawater Intrusion
- Degraded Quality
- Land Subsidence
- Surface Water Depletion

This information will be used to guide the District towards improving the management of these groundwater conditions.

Daids Engineering will also be presenting a draft work plan and budget for the implementation of the Groundwater Sustainability Plan. Input received from the Commission will be incorporated into the final work plan and budget.

Information from both presentations will be used to develop a SGMA grant application to be submitted in October.
